Rifle / Pistol Equipment

Equipment Control will be conducted according to ISSF Rules using approved, calibrated instruments. Pre-competition testing is not mandatory; however, athletes are responsible for competing with legal equipment and clothing. All athletes are urged to submit any doubtful equipment and clothing to Equipment Control for checking before the competition. All athletes are subject to being selected for random post-competition testing and will be disqualified if their equipment or clothing is not legal according to ISSF Rules.
All pistols must be registered in ISSF database. Pistols that have not been registered or recorded must be checked for compliance with ISSF Rules and registered to the athlete.

Rifle Clothing

All Rifle athletes must have ISSF Seals with serial numbers on their jackets, trousers and shoes. Any jackets or trousers that do not have ISSF Seals must be submitted to Equipment Control for inspection and the affixing of a seal before the athlete's first competition. All existing ISSF seals and Equipment Control cards / certificates issued to jackets and trousers will cease to be valid as from 1st January 2026. All those items of clothing must be submitted to Equipment Control for testing at the first opportunity when attending an ISSF Championship so that new seals and Equipment Control cards / certificates will be issued. Athletes that wish to replace a registered jacket or trousers with a new clothing item must bring that item to Equipment Control for inspection and a new seal. Previous seals will then be cancelled. Rifle athletes can have only one active jacket and trousers at any time.

Rifle Clothing Post-Competition Stiffness Testing

If one panel of a rifle jacket or trousers tests 2.9 or lower, the stiffness device must be recalibrated, and the panel must be retested. If it fails again, but all other panels pass, the athlete will not be disqualified and further procedures will take place. If two or more panels fail, the athlete must be disqualified.

Air Cylinders

It is the athlete's responsibility to ensure that any air cylinder is still within its validity date. This may be checked by Equipment Control. Please be aware that in some countries it is a federal offence to use outdated compressed air cylinders.

Shotgun Equipment

All Skeet athletes must have an ISSF seal with serial number on their Skeet marker tapes. Any shooting vests that do not have an ISSF seal on the Skeet marker tape must be submitted to Equipment Control for inspection and the affixing of a seal before the competition.
Equipment Control will be conducted according to ISSF Rules using approved, calibrated instruments. Pre-competition testing is not mandatory. However, athletes are responsible for competing with legal equipment and clothing. All athletes are urged to submit any doubtful equipment and clothing to Equipment Control or the Shotgun Jury for checking before the competition. All athletes are subject to being selected for random testing during the competition. Athletes found to be in violation of the rules for Shotguns or Skeet marker tapes will be disqualified.

Buttstock Height (for Skeet only)

The height of the buttstock (either adjustable or "Monte Carlo" type) measured from the highest point of the cheek rest to the lowest point of the butt plate toe must not exceed 170mm (17cm). Any butt plate

toe vertical extension which is not an integral part of the buttstock and simply intended to increase its height, is not permitted.

Cartridge Control
During Qualification, athletes whose cartridges are to be tested are selected by a computer draw. Between 10% and 18% of the athletes participating in an event will be selected for cartridge testing. Two (2) plus four (4) cartridges will be selected from each athlete and placed in separate labeled envelopes. The two (2) cartridges must be tested first. If both cartridges weigh 24.50 g or less, no further action will be taken. If one (1) or both cartridges weigh more than 24.50g, then the four (4) cartridges in the second envelope must be tested. If the average of the six (6) cartridges weighs more than 24.50 g, then the athlete must be disqualified (DSQ).
During Final, all eight (8) finalists must be tested using the same procedure. The Finalists or their Coaches/Officials must bring, as early as possible, but not later than 30 minutes before the scheduled start of the Final (Reporting Time), all the cartridges that will be used during the Final and place them in separate Cartridge Control Boxes on the Finals field of play. The Equipment Control Jury will take the necessary samples from the boxes. The boxes must be left under the supervision of a Shotgun Jury Member. Once cartridges are placed in the box, only the Equipment Control Jury or the Finalist can remove cartridges from the box. If additional cartridges are brought to a Finalist during Finals, samples from those cartridges must also be selected for testing. All cartridge controls must be completed before the start of the Presentation of the Finalists. Any disqualified (DSQ) athlete will not be allowed to participate in the Final (There will be no elimination for 8th place; the first elimination will be for 7th place).

Participants travelling with firearms and ammunition must carry the temporary import authorization together with the relevant firearm documentation during their journey and present it to the competent Italian Border Police and Customs Authorities upon arrival in Italy.
The temporary import authorization, once endorsed by the competent Border Police Office, allows the holder to temporarily import, transport and subsequently re-export the firearms and ammunition indicated in the authorization for competition and training purposes.
The re-exportation of firearms and ammunition must take place within 90 days from the date of their importation into Italy.

Member Federations are strongly advised to check in advance with their airline the applicable regulations, procedures and documentation required for the transportation of firearms and ammunition.

Shotgun

A maximum of three (3) shotguns and 1.000 cartridges per athlete are allowed to enter in Italy.
European Union Nationals holding a 'European Firearm Passport' (EFP) can import firearms to Italy without any auxiliary permission.

Please check the specifics, in the section "AMMUNITION", relevant to travel by car or plane.
For all the Extra EU Countries, or for EU Athletes not owning the EFP, it's mandatory to apply for the Gun Permit online procedure handled by FITAV (see: Gun Permit 2.0 User Manual) as per the Italian law and per the Italian Police security requirements.

The Athletes not holding a 'European Firearm Passport' (EFP) must indeed accurately follow the instructions described in the "GUN PERMIT 2.0 USER MANUAL" attached to the Invitation, so as to be guided step by step in how to use the system and how to get the Gun Permit document correctly issued.

FITAV will send the relevant Gun Permit soon after receiving the online application form duly filled in, together with the single registration (that is personal for each athlete) to be done on the dedicated Gun Permit online system: https://gunpermit.fitav.it. Registration of each user is required to enter.

FITAV email address to which you can refer to asking for any support for this procedure is:
gunpermit@fitav.it (Federica Iannucci)

IMPORTANT: All athletes traveling by car must go - once crossing the border - to the first available police station to declare the entry of the firearm(s) and show the authorities the documentation, including FITAV Gun Permit.
The FITAV Gun Permit or the EFP must be shown to the Police Authorities together with an invitation letter from the Organizing Committee, confirming the athlete's participation in the event.

The same letter will also be sent to athletes traveling by car and presented, together with the documents above, to the Italian Police in case of a check during the trip.

All athletes traveling by plane will have to fill in an additional double copy declaration on arrival at the Italian airport (the Organizing Committee will pre-fill the following document for all participants).

ISSF Technical Delegate:
Ms. Ghislaine BRIEZ (FRA) – Rifle/Pistol
Mr. Mohamed WAHDAN (EGY) – Shotgun

Competition Manager:
Mr. Valerio DI LERNIA (ITA) – Rifle/Pistol
Mr. Daniele GHELFI (ITA) – Shotgun

Organizing Committee:

E-mail: l.miracco@uits.it

This form, together with the FITAV Gun Permit, or the EPF at departure from Italy, must be returned to the Police Officers.

Police and Customs firearms formalities will take place upon arrival at the first airport on Italian national territory and at the last one at departure.
The Organizing Committee will NOT be responsible with the Italian Police at the airport for any incorrect information provided by the NPC related to firearms and ammunition.

Any request to change the shotguns details after the deadline must be notified to FITAV until five (5) days prior to arrival. Changes after that date will not be accepted.
All the delegations will be assisted to dispatch the Police and Customs procedures and escorted to the bus.
Travelers will meet the assistants near to the baggage collection upon arrival.
In case of failure, please contact the Organizing Committee.

Weapon Temporary Importation Form

Concerning the participating federations that will travel to Italy by plane carrying firearms. Please be informed that when arriving at any Italian airport you will be asked from the Police Authorities to fill-in the “Weapon Temporary Importation Form“ to pass the formalities at checkpoint.
To facilitate the Police operations at the “Arrivals” and allow you to go quicker through the whole procedure, the Organizing Committee will pre-fill the following document for all participants who will thus be able to present it promptly to the Border Police at the custom checkpoint.

To obtain the pre-filled document, please complete the "Firearm and Ammunitions Form" (Annex 5) in its entirety and send it to gunpermit@fitav.it, along with the passport.

IMPORTANT: For participating federations arriving in Italy by car, the “Weapon Temporary Importation Form" is obviously not required.
In any case, even if traveling by car, whenever carrying firearms you are always asked to notify to the local Police your arrival in Italy.

Thus, please be informed that - immediately after crossing the Italian border - it’s mandatory to go to the first useful Police station to declare the entry of your firearms on the Italian soil, showing all the required documentation, including the EPF or FITAV Gun Permit.
